Final EIS Public Comments and Responses

Appendix E

How to Use This Document

Our goal is to give you a reader-friendly document that provides an in-depth, accurate analysis of the proposed action, the alternative basing locations, the no-action alternative, and the potential environmental consequences for each base. The organization of this Environmental Impact Statement, or EIS, is shown below.

EXECUTIVE SUMMARY

Synopsis of Purpose and Need and Proposed Action and Alternatives
Comparison of Impacts

Appendix D – Air Quality
Appendix E – Revised Draft EIS Public Comments and Responses

APPENDIX E: REVISED DRAFT EIS PUBLIC COMMENTS AND RESPONSES

The appendix contains comments received from federal, state, and local agencies, and the general public during the public comment period for the Revised Draft F-35A Operational Beddown Environmental Impact Statement (EIS). The public comment period began on May 31, 2013 with the Revised Draft EIS Notice of Availability (NOA) published in the *Federal Register*. In accordance with the National Environmental Policy Act (NEPA), all comments were reviewed and will be taken into consideration by the Air Force in its decision-making process. Responses were provided for all substantive comments and incorporated into the Final EIS. Substantive comments received in response to the Revised Draft EIS were solely associated with the Burlington ANG alternative location and as such the responses refer to that proposed action.

The following presents the Air Force's Comment and Response Process. Please note that providing your name in the EIS process meant that you understood that your name and comment would be made part of the public record for this EIS.

E1 COMMENT RECEIPT AND REVIEW

Receipt

Comments on the Revised Draft EIS included letters, emails, handwritten notes, and postcards received during the 45-day public comment period. Please note that everyone who sent a comment (be it letter, email, handwritten note, or postcard) is listed and recognized as commenting. However, in order to minimize the document size only the letters, emails, handwritten notes, and postcards with notes were scanned and substantive comments bracketed, categorized, and specifically received responses. According to Council of Environmental Quality (CEQ), if a number of comments are identical or very similar, agencies may group the comments and prepare a single answer for each group. (N*ote to reviewers, the over 10,349 people who sent in postcards in support of the proposal are still being input into the database and therefore the complete list is not included herein)*

Review

In accordance with 40 Code of Federal Regulations (CFR) 1503.4, comments were assessed and considered as follows:

- Each letter, email, handwritten note, and postcard was assigned an identification number, were read, and reviewed carefully.
- Within each letter, email, handwritten note, and postcard, those issues that were substantive were identified and bracketed. Three guidelines were used to determine substantive comments:
    1. The comment questioned the Proposed Action, alternatives, or other components of the F-35 Operational Beddown action.
    2. The methodology of the analysis or results was questioned.
    3. The use, adequacy, and/or accuracy of the data presented in the EIS were questioned.

- The bracketed comments were reviewed by environmental resource specialists who draft the responses.
- In many cases, similar comments were assigned the same response. If the same comment was repeated within the same letter or testimony, it was bracketed the first time it appeared.
- Individual bracketed comments were assigned a number and a response. These responses are organized consecutively by number and appear in the Responses section of this Appendix.
- The EIS was modified to make corrections and improve or clarify the analysis.

E2 ORGANIZATION

All comments received throughout the 64-day review period were considered equally. The comment are printed in numerical order and organized as follows:

- ***"Letter" comments*****:** this includes letters, emails, and handwritten comments that are assigned an R (indicating a response to the Revised Draft EIS) followed by a number.
- ***Form Postcards*****:** a sample of each of the several types of form postcards, with the comments bracketed, is provided to reduce redundancy. Any postcards having different, additional comments were included as separate comments. All of the postcards, however, were assigned a unique comment number, became part of the project record, and were used by the Air Force in the decision-making process. An electronic copy of all postcards is available from the Air Force upon request.
- ***Signed petition*****:** one was received in support of the basing action in Burlington Air Guard Station (AGS). It was assigned a single comment identification number and response. There were 2,460 signatures; however, it was not possible to verify if there were duplicates.

The Air Force also received hundreds of postcards after July 16, 2013—the end of the official comment period. These comments were not included as part of the Final EIS or this appendix; however, they are part of the official record and will be considered in the decision-making process.

E3 LOCATING YOUR COMMENT

A directory (Table E-1) begins on page E-4 and is arranged alphabetically by last name; the first name is included and both are found in the first and second columns (if the name was illegible that was noted). After finding your name, go to the third column that has your specific comment number. The fourth column indicates the city from which the comment was received (if there was none that was noted). The fifth column includes whether the commenter (if they had indicated such) was an elected official, federal agency representative, or Tribal member with consultation standing. The sixth column provides a listing of responses to issues identified and bracketed in your particular comment. Table E-2 (page E-26) provides a list of all the people who sent postcards in support of the basing action in Burlington (R-PCS-####) and a sample of the petition (R-Petition). Examples of both types are provided just prior to the table. Tables E-3 (page E-88) and E-4 (page E-99) are the lists of people who sent postcards in opposition to the basing action (examples of these comments precede the tables). There are two types,

the list for R-PCOY-#### (the yellow postcard) and the list for R-PCO-#### (revision of the support postcard).

E4 COMMENT KEY

The following were used to identify the comment by resource category; the number following the abbreviation designates the particular comment in the specific resource category.

AQ-Air Quality
BR-Biological Resources
CR-Cultural Resources
EJ-Environmental Justice
GO-General Opposition
GP-General Process
GS-General Support
NO-Noise
PA-Proposed Action
PI-Public Involvement
SA-Safety
SO-Socioeconomics
SB-South Burlington City Council

E5 LOCATING RESPONSES TO COMMENT

Air Force responses to comments are located in the Response section of this volume and are noted in column six of the directory. All substantive comments within each comment letter, email, or handwritten note were given a response number. Response numbers are printed next to the brackets in the right margin of the comments. Every bracketed comment has a corresponding response. Each response is designed to be read along with the comment it addresses. Air Force responses to comments are organized alphabetically by response code. The first page of the responses provides a key to the response codes.

The responses refer to the Revised Draft EIS. For example, if the commenter suggests a deficiency in the Revised Draft document, the response may refer to the location in the document where information for clarification can be found. Where amended information is included, the reader is directed to that section of the Final EIS where the change was made.

Public involvement is an important part of the NEPA process, and all comments regardless of format (i.e., letter, email, handwritten notes, postcards, or petition) are equally considered by the Air Force in its decision-making process.

POSTCARD LIST AND PETITION IN SUPPORT

I concur with the Air Force's assessment that Vermont is the preferred location for the F-35

From the Draft EIS I understand that the F-35 will create sound similar to the F-16, there will be 2,613 fewer operations per year and there will be no adverse health effects on citizens.

Signed

MICHAEL A MAGEE

Print Name

City, State, Zipcode

F35 for Vermont

Signatures in Support of the F-35 at the Vermont Air National Guard

GS-1

Mr. Nicholas Germanos
HQ ACC/A7PS
129 Andrews St., Suite 337
Langley AFB, VA 23665-2769

Dear Mr. Germanos:

We the undersigned are Vermonters who are in support of the basing of the F-35 in Vermont. As individuals, each of our understanding from information we know regarding the EIS is that Vermont will not see undue environmental burden and is a preferred site for the basing of the F35.

FACTS: Our understanding according to Table BR3.2.9 is that the F-35 will create sound similar and in many areas QUIETER than the F-16. We understand IAW table BR3.1-1 that there will be 2613 fewer operations per year. We recognize that the proposed 65 DNL line in the EIS depicts a change, but in accordance page 2-43 understand that follow on noise evaluations will be accomplished and will include operational profiles and noise mitigation procedures. We further understand IAW page C-20 "there is no scientific basis for a claim that potential health effect exist for aircraft time-average sound levels below 75db."

We believe the F-35 continues a proud 67 year tradition of the Vermont Air National Guard's (VTANG) service to Vermont and believe the mission change is an economic benefit to theUnited States, the state of Vermont and the local economy. We support the conclusion that Vermont is a key strategic location for the basing of the F-35 and believe that the EIS does not depict undue impact.

Each of us who sign in support respectfully asks that you count our names as individuals and not regard this communication as one comment.

POSTCARD LIST IN OPPOSITION

Name Lorrie Richland

Address [redacted]

Tel: **Email**

Comments:

I am very concerned about the environmental impacts from the F-35 fighter jets - and feel they should not be stationed in Burlington - Vermont

I don't concur with the Air Force's assessment that Vermont is the preferred location for the F-35

From the Draft EIS I understand that the F-35 will create sound similar to the F-16, there will be 2,613 fewer operations per year and there will be no adverse health effects on citizens.

Signed

Print Name

Street Address Winooski

City, State, Zipcode

F35 for Vermont
